

Concrete Construction : Floors / Monolithic Slabs / Driveways / Sidewalks / Decorative / Landscaping Services

Cutting Edge Curb, Landscaping and Concrete can help you out with all your landscaping and concrete needs. Give us a call today for a free estimate and consultation. We use 3d rendering software to help assist you in visualizing your landscaping dreams. Decorative landscape curbing from Cutting Edge is a custom fit seamless concrete border for your landscaping, trees, and flower beds. Our curb is a continuous, permanent and effective grass and weed barrier. Cutting edge installs your curbing contouring to hillsides, curving gracefully around your landscaping and around trees and any other obstacles in your yard.

“Putting the Pieces Together for You”

Owners Kurt & Stacy Burley head a team of professionals who will be with you every step of the way. We start by listening to your ideas. We then come up with a working design and estimate. If our estimate is accepted, a contract is written with detailed specifications, building permits are pulled, and the project start date is set. Some people remodel for more space; some people remodel for a higher quality of life. Regardless of your reason for remodeling, our goal is to fulfill dreams and enhance lifestyles by delivering solutions to your kitchen, bath, or room addition. We fulfill that goal by giving you the quality, service and attention that you deserve. We are also mindful of the fact that our work site is also your home, so we clean up at the end of each day and we strive to make the work area as non-disruptive to your household as possible.

Jeacec Custom Woodworks

Affordable Custom Cabinetry

Cabinetry / Doors / Furniture

Jeacec (J-ah-sec) Custom Woodworks and Mountain Sky Furniture are located 4 miles south of Manhattan, Montana. We manufacture interior and exterior furniture and cabinetry. We pride ourselves in the range of styles that we can build. From rustic log furniture to modern contemporary, there is nothing we can't build. We manufacture cabinetry in 3 different price structures in order to accommodate every budget. We build furniture for your home, office, patio and cabin and for all rooms. We can help you with all of your design ideas by providing you with 3d computer generated drawings of what ever you are dreaming of. Whether it is creating that custom heirloom furniture piece or functionalizing your kitchen, we want to work with you. Contact us for your free consultation. All of our products are Montana made by Montana Craftsmen.
